ABOUT ME

I am a full stack web developer and React Native developer with experience in building web and mobile applications. Currently, I am a GenAI intern at Talrop, exploring AI technologies. I also work as an animator at muLearn, creating visual content, and as a web master at IEEE MEA SB, managing websites. Additionally, I am a master tutor at Steyp, helping students learn coding. I am a student at MEA Engineering College and passionate about technology and innovation.

EXPERIENCE

TALROP/STEYP

- **Full Stack Web Developer intern (Django)|Nov/22 - Dec/23:** Developed web applications using Django, working on both front-end and back-end,
- **App Developer intern(React Native)Feb/24 - Apr/24 :** Built cross-platform mobile applications with React Native,flutter .
- **GenAI intern:** Worked as part of a team focused on developing generative AI solutions.

IEEE MEA SB, MALAPPURAM, KERALA

- **Web Master (01/2024 – Present),** I created and currently oversee the development and maintenance of the official **WordPress** website for the IEEE MEA Student Branch. I ensure it remains up-to-date, functional, and user-friendly. Additionally, I manage website hosting, troubleshoot issues, and optimize the website's performance.
- **Speaker of Web Development Workshop:** I had the privilege of being a speaker at the Web Development Workshop during the ENVISION 23 summit, organized by IEEE MEA SB. My session focused on enhancing attendees' web development skills for practical application in real-world projects.
- **Volunteer at XT and Milan 7.0 :** I volunteered for two events by IEEE MEA SB: XT and Milan 7.0. For XT, a 2-day event for IEEE students, I organized logistics, set up equipment, and resolved technical issues to ensure everything ran smoothly. For Milan 7.0, a summit for newcomers, I helped coordinate workshops and activities, supporting both technical and non-technical tasks to enhance the participants' experience.

GTECH MULEARN

- **Animator intern |May/2023 - Present :** I am currently Serving as an **Animator Intern** at GTech Muleaen, where I focus on creating animations using **Blender** and **After Effects (AE)**.
